

ANURAG YADAV

SDE1 | Full-Stack Engineer | Backend & Frontend

Gurgaon · 📞 +919115392172 · anuragyadav622003@gmail.com · [LinkedIn](#) · [GitHub](#) · [Portfolio](#) · [LeetCode](#)

PROFESSIONAL SUMMARY

Full-Stack SDE with production experience in startup environments, building microservices and customer-facing products. Strong in **NestJS APIs**, **React/Next.js**, **system design**, and end-to-end feature ownership. Experienced in designing scalable backend architectures, RESTful APIs, and distributed service workflows. Currently developing an AI-powered test automation platform at Mozark across device management, visual testing, and agent-driven workflows.

TECHNICAL SKILLS

Languages: C++, Python, TypeScript, JavaScript, SQL
Backend: NestJS, Express.js, Node.js, REST APIs, Prisma ORM, Microservices, TCP, Redis
Frontend: React.js, Next.js, Zustand, TailwindCSS, Redux Toolkit
Databases: PostgreSQL, MongoDB, MySQL, SQLite
System Design: System Design, API Design, Microservices, Scalable Architecture
Tools: Git, Docker, MinIO, Jest, Postman, Appium, Jira

EXPERIENCE

SDE1 | Mozark Gurgaon, Haryana | Apr 2026 – Present

- Building **Test Studio**, a full-stack test automation platform for mobile and web using **Next.js**, **React**, **NestJS**, **Prisma**, and Python-based AI/visual services in a **microservices architecture**.
- Designed and developed **NestJS REST APIs** for test modules, cases, data, project storage, and **VCS sync**; integrated **MinIO** object storage and **JWT-based** multi-tenant access control.
- Implemented the **three-pane workspace UI** (test authoring, device preview, execution/chat) with **TypeScript**, **Zustand**, and **Tailwind CSS** for **iOS/Android** workflows.
- Integrated **CopilotKit** and AI scripting agents for natural-language test generation; connected frontend, backend, and **Optics** services for end-to-end execution and debugging.
- Resolved cross-platform issues in device overlays, coordinate scaling, workspace sync, and keyword APIs; improved execution reliability and platform-aware file management.

Software Engineer | SoftxAI Technology Pvt. Ltd. Hyderabad, India | May 2025 – Oct 2025

- Developed scalable **NestJS/Node.js/TypeScript** APIs with **PostgreSQL** and **microservices** for modular, production-ready backend services.
- Migrated legacy **Python** modules to **NestJS**, optimizing DB operations with **raw SQL** for **40% faster** API response times.
- Designed **cron-based batch processing** for 300K+ records in batches of 200 with retries, completing runs in 10–30 seconds to avoid CPU overload.
- Maintained **Jest** unit and integration tests across controllers, services, and DB layers, achieving **85%+ coverage**.

Software Developer Intern | RegisterKaro Gurgaon, Haryana | Feb 2025 – May 2025

- Built responsive **Next.js/TypeScript/Tailwind CSS** UIs with **80%+ Lighthouse** performance and **95%+ SEO**.
- Migrated **Python** services to **Node.js/Express/MongoDB** and optimized queries to reduce DB load and improve response times.

PROJECTS

Centralized Auth & Reminder Microservices [GitHub](#) — Live

- Designed a **distributed microservices system** with **NestJS**, **Prisma**, **PostgreSQL**, **MongoDB**, **JWT** access control, and Dockerized deployment.
- Implemented **TCP inter-service communication**, **Redis**, cron schedulers, and an **API Gateway** for reliable, loosely coupled backend architecture.

ACHIEVEMENTS & CERTIFICATIONS

- Mozark Offer Letter:** Appointed as SDE1 [Certificate](#)
- SoftxAI Internship:** Successfully completed internship [Certificate](#)
